LOCAL SELF-GOVERNMENT.

RESOLUTION

REVIEWING

The reports on the working of the District Boards in Bihar and Orissa during the year 1934-35.

PATNA:
SUPERINTENDENT, GOVERNMENT PRINTING, BIHAR
1936.

No -L. S.-G.

GOVERNMENT OF BIHAR.

(MINISTRY OF LOCAL SELF-GOVERNMENT.)

From

V. K. R. MENON, Esq., I.C.S.,
OFFG. SECRETARY TO GOVERNMENT,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF EDUCATION, HEALTH AND LANDS.

Patna, the May 1936.

Sir,

I am directed by the Government of Bihar in the Ministry of Local Self-Government to submit the accompanying resolution on the working of district and local boards in Bihar and Orissa during the year 1934-35, together with the prescribed statements.

2. An abstract of the income and expenditure of district and local boards in the province during the year in form of Table 141 of the Statistical Abstract of British India (fifth issue) is also submitted as promised in Mr. Owen's letter no. 1642-L. S.-G., dated the 2nd February 1929.

I have the honour to be,

Sir,

Your most obedient servant,

V. K. R. MENON,

Offg. Secretary to Government.

No. 7522-L.S.-G.

GOVERNMENT OF BIHAR AND ORISSA.

(MINISTRY OF LOCAL SELF-GOVERNMENT.)

RESOLUTION.

Dated Ranchi, the 20th May 1936.

READ—

The reports of the Commissioners of Divisions on the working of district boards during the year 1934-35.

1. *Constitution of district boards.*—As a result of the amendment of section 13 of the Bihar and Orissa Local Self-Government Act, the term of office of the existing district and local boards has been extended from three to five years. There was no other change in the constitution of district boards during the year under review, all of them having been reconstituted during the year preceding. There were a few by-elections and nominations of new members to fill casual vacancies. The only changes in the personnel of the executive officials of district boards were in Monghyr, where Babu Ramcharitra Singh resigned his office of chairman and Babu Srikrishna Sinha was elected in his place, and in Patna, where Babu Parmeshwardhari Sinha was elected vice-chairman in succession to Maulavi Saiyid Hasan, who had been elevated to the office of chairman. Rai Sahib Lakshmichand Suchanti, whose election to the district board of Patna as a member was set aside during the year as a result of a civil suit filed by a rival candidate, ceased automatically to be a member of the Bihar local board and its chairman. In view, however, of the valuable services previously rendered by him to the board, he was shortly afterwards appointed a member of the Bihar local board and subsequently elected its chairman.

2. *Meetings and tours.*—In most districts the number of meetings held was in excess of the statutory minimum of one meeting per month, and no board failed to attain this standard. As in the preceding year, the Monghyr board held more meetings (29) than any other. Adverse comment was made by Government in last year's resolution on the persistent habit of this particular board to hold what appeared to be a quite unnecessarily large number of meetings every year ; but it has since been explained that this was due to the fact that two or more " special meetings " were not infrequently held for the transaction of extraordinary business in direct continuation of the ordinary monthly meeting, and that no unnecessary waste of time or money was involved. The attendance of official and non-official members at district board meetings was quite satisfactory in all districts except Sambalpur, where the average percentage of attendance of non-official members was 42·1 only. In this district, the chairman himself failed to attend three out of 12 meetings held during the year. It is hoped that the members of the district council will give a better account of themselves in future. It is satisfactory to record that there was no occasion on which any district board meeting had to be adjourned for want of a quorum.

The usual tours of inspection were performed by the executive officers of the district and local boards, during which they inspected outlying institutions such as schools, hospitals, *dak* and inspection bungalows, pounds, union boards, offices of local boards and also public works in course of execution. The chairman of the Champaran district board who did extensive touring in the interior of the district is reported to have visited areas in which epidemics were in progress and to have used his personal influence in pushing on the work of inoculation. On the other hand, the amount of touring done by the chairmen of Saran, Darbhanga, Purnea, Bhagalpur, Manbhum and

Cuttack district boards was far from adequate. The chairmen in Darbhanga and Saran are reported to have spent only 3 and 17 days respectively, on tour in the course of the whole year. Government regret to find that the observations made by them in previous resolutions about the great importance of tours of inspection by executive officers have not received more attention in these cases.

3. *Local boards.*—There was no change in the number of local boards or in that of their members. The local boards in the district of Gaya were reconstituted during the year under review, the others having been reconstituted during the preceding year. As in the case of district boards, a few casual vacancies were filled by election or appointment. The chairman of the Begusarai local board in the district of Monghyr having resigned his office, Babu Ramcharitra Singh was elected in his place. The Jehanabad local board in Gaya failed to elect its executive officials, and they had to be appointed by the district board under section 20(4) of the Act.

A fairly large number of local boards failed to hold the statutory number of 12 meetings in the year. The worst offenders in this respect were the boards in the districts of Muzaffarpur, Balasore and Puri, none of whom attained this standard. In Gaya, out of the four local boards three failed to meet twelve times. No explanation has been offered by any of the above boards of their failure to comply with this statutory requirement. In the case of the Patna Sadr and Bihar local boards, a similar failure is ascribed to the fact that there was no important business to be transacted. It is discouraging to find that the local boards in Gaya, Puri and Balasore made no effort at improvement in this respect, although their failure last year to hold the prescribed number of meetings was noticed in the last resolution of Government. The average percentage of attendance at meetings by official and non-official members was above 50 in all districts except Sambalpur where it was much below this figure. Poor attendance at meetings of those bodies in Sambalpur is tending to become a regular feature.

There was no change in the powers of any of the local boards. The local board at Dhanbad continued to exercise wide powers as hitherto. In Monghyr, the system of amalgamation of the entire engineering staff of the district continued to work but the opinions of the executives as to the success of the scheme differ. The present chairman of the Monghyr district board agrees with the views of his predecessor in office that the scheme requires modification. The system was also introduced in the district of Bhagalpur, during the year under review, but it is reported that under the amalgamation scheme, the supervision of work both under the District Engineer and the local boards seems to have been deliberately neglected by the engineering subordinates, who probably seem to be inclined to make the scheme a failure. It is hoped that the executives of the district and local boards concerned will see that the subordinate engineering staff discharge their duties properly. The relations between the district and local boards are reported to have been generally happy.

4. *Union committees.*—Since the enactment of the Bihar and Orissa Village Administration Act, 1922, the number of union committees constituted under the Bihar and Orissa Local Self-Government Act, 1885, has been gradually on the decrease due to conversion of some of the committees into union boards under the former Act which confers larger power on these village authorities. There was, however, no decrease in the total number of these union committees which remained at 23 as in the previous year. The northern boundary of the Khagaria union committee in Monghyr was refixed. The five union committees in Gaya, those at Gogri and Haveli Kharagpur in Monghyr and Amarpara and Madhipura in Bhagalpur were reconstituted during the year. All the union committees except five, held less than 12 meetings during the year, those of Amarpur and Nirmali having held no meeting at all. The union committees at Gogri and Haveli Kharagpur are reported to have shown no signs of improvement in work and the local public appear to be averse to their continued existence. The working of the committees in Bhagalpur was far from satisfactory and the Amarpur union committee is reported to have been a complete failure. This committee has been reconstituted recently and the work of the new committee is being watched.

The activities of the union committees were generally confined, as usual, to the maintenance of pounds, village roads, primary schools, rural water-supply and sanitation and conservancy arrangements in their areas. The control of primary education which was transferred to the Nawadah union committee was withdrawn during the year on account of inefficient management. The latrine scheme in the Jehanabad union is reported to be working satisfactorily. The union committees of Dalsingsarai and Jainagar in Darbhanga, Begusarai and Jhajha in Monghyr and Nirmali and Madhipura in Bhagalpur continued to maintain lighting arrangements with funds provided by the district board. The Jhajha, Begusarai and Jamui union committees in Monghyr continued to do good work.

The total income of the union committees during the year excluding the opening balance of Rs. 23,142 amounted to Rs. 95,660 against Rs. 92,330 in the year preceding. Out of this sum, Rs. 48,479 represents the amount of contribution paid by district boards and Rs. 32,686 was raised by taxation under section 118-C of the Local Self-Government Act, 1885. The increase of Rs. 3,330 in the total income is shared by most of the union committees. Out of this a sum of Rs. 93,483 was expended—Rs. 23,563 on establishment, Rs. 10,650 on village roads, Rs. 22,692 on conservancy, Rs. 26,233 on education and the balance on other minor heads, leaving a closing balance of Rs. 24,319. The collection of union tax under section 118 of the Local Self-Government Act, 1885, was unsatisfactory in the union committees of Aurangabad, Balarampur and in those of the Bhagalpur district, while it was good in those of the Monghyr district.

5. *Financial results.*—(The figures in this and the succeeding paragraphs are given in thousands of rupees.)

The aggregate opening balance of district boards (including deposits and unspent Government grants) on the 1st April 1935, amounted to 33,27 against 23,82 in the year preceding. The increase of 9,45 was shared by all the boards except those of Gaya, Saran, Purnea, Palamau and Puri where there was some decrease as compared with the last year's figure. The increase was substantial in the Shahabad, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, and Hazaribagh district boards. The heavy balances in the three Tirhut districts were due to a large amount of unspent Government grants. The total receipts from all sources including Government grants amounted to 1,63,33 against 1,40,66 in the previous year. The total amount available for expenditure including the opening balance thus amounted to 1,96,60, out of which a sum of 1,59,04 was expended leaving a closing balance of 37,56. This balance includes deposits amounting to 5,02 and unspent Government grant of 8,68 made for specific purposes. Thus the total actual ordinary balance of the boards stood at 23,86.

6. *Local rates.*—The income of district boards under this head stood at 79,82 against 72,70 in the preceding year. The net increase of 7,12 was shared by the district boards of Patna, Gaya, Saran, Muzaffarpur, Darbhanga, Purnea, Monghyr, Palamau, Cuttack, Balasore and Puri, the increase was, however, marked only in the districts of Patna (+66), Gaya (+1,43), Muzaffarpur (+86), Darbhanga (+38), Purnea (+4,22), Palamau (+24), Cuttack (+33), and Puri (+28). On the other hand, there was substantial decrease in the income of Shahabad, Hazaribagh and Manbhum where it fell by 33, 32 and 68, respectively. The income of the Champaran and Ranchi boards was almost stationary under this head.

The substantial increase in the districts mentioned above was mainly due to better collection and realization of arrears. In the district of Purnea, particularly, where the income during the year stood at more than double of the previous year's figure, the realization of arrears was very satisfactory owing to the special endeavours made by the Collector which have been fully appreciated by Government. Government have since examined the matter carefully and come to the conclusion that a general revaluation of cess in this

district is justified in view of the abnormal fall in the value of jute, the crop on which the prosperity of the district mainly depended. The revaluation operations would doubtless reduce the board's income from this source considerably. Shahabad's fall in income is attributed to distress caused by floods and that of Manbhum to the continued depression in coal trade. In Hazaribagh, the decrease is reported to be due to reduction of demand in certain cases and also partly to refund of a sum of 17 to the East Indian Railway Administration as a result of an adverse decision of the Board of Revenue.

7. *Government grants.*—The income of district boards from contributions out of the provincial revenues for the purposes of "Education", "Medical Relief and Public Health" and "Civil Works" amounted to 30,48; 3,95, and 16,33 against 30,45; 3,85 and 10,47, respectively. The substantial increase in the contribution for "Civil Works" is chiefly due to large grants made to several district boards for restoration of the buildings and roads damaged by the last earthquake. Income from ferries was also responsible for some increase in some districts. The augmentation grant and the grants made out of the receipts from motor vehicles taxation amounted to 1,50 and 3,60 against 1,50 and 2,78 made in the year preceding.

8. *Distribution of expenditure under main heads.*—The total expenditure of the boards during the year amounted to 1,59,40 as against 1,31,22 in the previous year. The increase of approximately 28,18 occurred mainly under the heads "Civil Works" and "Public Health" which were responsible for an expenditure of 61,37 and 6,98 against 45,24 and 4,85, respectively, in the year before. The expenditure over "Education" and "Medical relief" does not show any marked increase, the total expenditure during the year being 45,62 and 15,32 against 43,82 and 14,66, respectively. The expenditure over repayment of loans and refund of deposits and advances rose to the high figures of 4,15 and 16,14 against the corresponding figures of 1,86 and 9,25 of the previous year. The increase or decrease of expenditure under the several important heads are explained in the subsequent paragraphs.

9. *Education.*—As the figures given in the preceding paragraph will show the aggregate expenditure of the boards under this head, excluding the expenditure on educational buildings, rose by 1,80 as compared with the last year's figure. The increase was shared by all the district boards except Singhbhum where there was a decrease due to the imposition of a cut in the pay of teachers. In Saran, the standard of expenditure remained practically the same. The rise in expenditure under this head was substantial in the districts of Patna, Shahabad, Monghyr and Purnea. The increase in Patna is reported to be due chiefly to the increase in pay of trained teachers to bring it to the level of the prescribed minimum and to the conversion of three aided schools to board managed ones. In Shahabad, it is accounted for by the restoration of cut in the salary of the staff of primary and secondary managed schools and to payment of larger and arrear grants-in-aid to stipendiary schools. In Gaya, the opening of a new middle English school and the taking over of another by the board for management led to some increase in expenditure. The increase in Monghyr is attributed mainly to the restoration of cut in the pay of middle school teachers and payment of primary school teachers at the prescribed rates and to grants made for repairs of middle school buildings. In Purnea, the payment of arrear bills is responsible for the increased expenditure. The number of various classes of schools managed, aided or receiving stipends from the district board does not on the whole show any marked fluctuation. The number of Middle English schools maintained and aided by the boards, however, increased during the year by 12 and 11 respectively. The number of girl students attending board managed and aided schools shows a decrease of over a thousand though the number attending stipendiary schools rose by nearly six thousand as compared with the last year's figures. There appears to have been no material expansion in the spread of primary education during the year. The want of trained female teachers in some places is working as a handicap in the progress of education amongst girls. Ten girl students secured scholarship in Purnea from board's schools, as in the previous year. The limited income of the boards in most of the districts is apparently the cause of the slow progress in

the matter of education. Vocational training to students in middle schools, such as carpetweaving, soapmaking and etc., also continued to be given in Patna where teachers were encouraged to train students by being granted personal allowances. Teaching in book-binding and music was introduced in the Silao and Noorsarai Middle Vernacular schools. The Darbhanga district board paid the usual block grant to the Rohika Central Co-operative union for education. Agricultural training continued to be imparted to students at the Sidheshwarpur Middle English school at Cuttack where an agricultural garden has been laid out. The district boards of Muzaffarpur, Saran and Darbhanga employed six *charkha* instructors. In Purnea district, there were 35 schools for aboriginals. Further, the board granted aid to 18 schools for boys and girls of the untouchable classes. The boards of Patna and Monghyr also gave encouragement in some form towards education of boys and girls of the depressed classes. A large number of the boards continued to award scholarships for technical education. The number of scholarships awarded by the Patna district board at the Patna Blind School was raised from 2 to 4. The board also gave financial support to certain rural libraries. The minimum standard fixed by Government for expenditure under this head, was exceeded by most of the boards.

10. *Medical.*—The total expenditure of the boards under this head also shows a small increase of 66 over the expenditure of the previous year. The increase was shared by most of the boards but was substantial in the districts of Shahabad, Darbhanga and Purnea. The number of dispensaries maintained by district boards shows a net increase of 6. There were 7 new dispensaries opened during the year, 4 in Palamau and one each in Shahabad, Darbhanga and Balasore. The Ayurvedic dispensary at Bhagalpur is no longer maintained by the district board but the board gives an aid to it. The number of aided dispensaries remained the same. A new Ayurvedic dispensary was aided in Champaran but the Hazaribagh district board withheld its help from one of the five dispensaries aided last year. The new dispensary in Shahabad was located at Kori. There was an appreciable increase of 15 in the expenditure of the Darbhanga district board, due mainly to the opening of a new Ayurvedic dispensary and the appointment of one inspecting *Vaidya*, a temporary relieving doctor and three temporary compounders. The increase in Purnea was mainly due to payment of arrear bills of last year. Of the four new dispensaries opened in Palamau, three are Ayurvedic and one Tibbi. The opening of a new dispensary at Hatigarh in Balasore led to an increase of about 3 in the expenditure under the head. The Patna district board continued to subsidize the municipal dispensaries at Barh, Bihar and Dinapur and to make contributions to the zenana hospitals of these places. The Gaya district board paid the usual subsidy of 10 to the Gaya Pilgrim Hospital and also about 3 to the Daudnagar dispensary. The district board of Muzaffarpur is reported to have started an allopathic dispensary at Majorganj to combat the outbreak of malaria which is frequent in the area. The board also continued to maintain three medicine distributing centres at Jhapaha, Bhairopur and Bishunpur. The Sondho centre for distribution of Ayurvedic medicine was placed under the independent charge of a local *Vaidya* on the lines of a subsidized dispensary. Monghyr maintained five subsidized *Vaidyas* and two subsidized *Hakims* and spent nearly 6 over granting allowance and supply of medicines. They treated over 80,000 patients. The working of most of the Ayurvedic dispensaries and the services of *vaidyas* are reported to have been satisfactory. Some of the district boards maintained the services of midwives and trained *dais* for maternity and child-welfare work. The Patna district board employed three midwives at Masaurhi, Khusrupur and Bharatpura. The Gaya district board continued to maintain a midwife at seven rural dispensaries and also sanctioned appointment of an eighth. The maternity and child-welfare centre at Khurda continued to work with a midwife. She visited 1,145 houses and attended 79 delivery cases. A trained midwife was engaged by the Champaran district board who trained 306 local *chamains* in nine centres and attended 27 labour cases. The district boards of Saran and Muzaffarpur are reported to have spent only paltry sums over training of *chamains*. As reported last year, an Act for the registration of midwives and *dais* has been passed by the local legislature. The provisions of this law have since been extended to all the

districts of the province with effect from the 1st June 1935. The object of the law can be achieved, however, only if efforts are made by the boards to provide a sufficient number of trained *dais* and midwives within the easy reach of the masses. Government trust that the boards will lose no time in providing better facilities in this direction to the extent that funds permit.

Campaign against leprosy is still carried on in certain districts. The Patna district board paid its usual contributions to the Gaya Leper Asylum and the Gulzarbagh Leper Institute and also treated 20 cases at its dispensaries. The Gaya district board also paid their contribution to the local Leper Asylum. The two clinics in Champaran, one in Darbhanga and six in Muzaffarpur continued to work. The clinics in Muzaffarpur treated 2,142 cases out of which 13 are reported to have been cured and 253 to have improved. The Saran district board also made small grants to certain hospitals in the district for treatment of leprosy cases. Leprosy is a scourge in Orissa and although provision for relief of lepers was made by all the boards, the campaign against it is reported to be still in its infancy. Three clinics in Cuttack, two in Balasore and eight in Puri continued to work. In Sambalpur, the system of treatment of lepers at dispensaries appears to have been generally appreciated. The district boards of Chota Nagpur appear to have done no work for combating leprosy.

Some of the district boards continued to grant scholarships to the students of medicine both of the allopathic and indigenous systems. Medical examination of school children by dispensary doctors and health officers continues to be carried on in a number of districts.

11. *Public Health.*—The expenditure of district boards under this head rose by 2,13 as compared with the last year's figure. The increase was mainly due to larger expenditure on combating epidemics and on original works of water-supply. The expenditure under these heads amount to 1,15 and 1,84 against 46 and 88, respectively, in the previous year. Under the head "water-supply", the expenditure was particularly heavy in the districts of Tirhut and Bhagalpur divisions. Cholera appears to have been serious during the year in the districts of Patna, Gaya and Shahabad where the number of deaths reported from rural areas was 4,597, 2,660 and 2,042, respectively. Champaran, Darbhanga, Monghyr, Bhagalpur, Cuttack and Sambalpur also suffered heavy loss of lives due to the epidemic. Cholera bacteriophage was generally used with much success both for treatment of cases and as a preventive. Besides disinfection of wells and other sources of water-supply and of houses, inoculation was also resorted to on a larger scale to prevent the spread of the epidemic. The Cuttack district board is reported to have distributed pamphlets on cholera and its prevention in the affected areas. The distribution of such leaflets in local vernaculars, in times of epidemics is bound to prove of immense value, at least to the literate public. Of the other epidemics, small-pox infested most of the districts and plague and malaria raged in some. The districts of the Patna Division were free from plague and the outbreak of small-pox is also reported to have been comparatively mild. Compulsory vaccination was in force in the districts of Patna, Gaya and Muzaffarpur. Vaccination and revaccination are reported to have been carried on a large scale in most of the districts. But the epidemic was severe in the districts of Monghyr, Purnea, Hazaribagh and Cuttack. Plague made its appearance, as usual, in the subdivisions of Begusarai, Hajipur, Muzaffarpur Sadr, and Samastipur. During the year under report, some of the thanas of the Saran district and the Bettiah subdivision of Champaran were also affected by it. Dispensary doctors and extra epidemic doctors were employed to push on the work of anti-plague inoculation in the affected areas of Tirhut. The outbreak in Begusarai was mild. Though malaria raged in the districts of Champaran, Muzaffarpur, Darbhanga, Bhagalpur, Cuttack and Balasore, it is gratifying to note that no severe outbreak is reported from any quarter except from Muzaffarpur and the Madhipura subdivision of Bhagalpur. Apart from the treatment of patients at boards' dispensaries, quinine pills and cinchona tablets were distributed in the affected areas by the boards' public health staff. The boards of the Patna, Chota Nagpur and Orissa Divisions do not appear to have made any appreciable advance in extending and improving water-supply organisation, during the

year. Their activities consisted mainly in maintaining and repairing the existing sources of drinking water-supply. Considerable expansion is, however, reported from the districts of Muzaffarpur, Darbhanga, Champaran, Monghyr, Bhagalpur and Purnea. In the first four of these districts, the boards spent heavy amounts in restoring and repairing the old wells which had been damaged or choked up as a result of the earthquake of January 1934. In Muzaffarpur, 670 new tube wells and 307 surface wells are reported to have been sunk at a cost of over 53 against a Government grant of 50 made for the purpose. In Darbhanga, 172 deep tube-wells were provided out of the fund provided by the Maharajadhiraja of Darbhanga and two masonry wells were also completed. These measures greatly relieved the water scarcity caused by the earthquake. In Champaran, tube-well materials to the value of nearly 20 was purchased for fixing in areas affected by the earthquake. The Bhagalpur district board spent over 12 on construction of new wells nearly half of which represents expenditure not connected with the earthquake. The Sadr local board in Monghyr installed 75 tube-wells. In the North Gangetic area of the district special arrangements were made to remove the water scarcity due to the earthquake. Apart from sinking 15 new wells the board carried on extensive repairs to several damaged wells. In Purnea, the increase in the expenditure under this head was due to sinking of 153 new wells from the district fund and over 5 was spent on repairs of wells damaged by the earthquake. Well-boring staff was maintained by the district boards of Patna, Darbhanga and Muzaffarpur. Some expenditure was also incurred in Patna, Muzaffarpur and Darbhanga on construction and repairs of drains. The public health staff of the boards also supervised or themselves provided for the sanitary arrangements, disinfection of water-supply and other similar measures for prevention of outbreak of epidemics in fairs and *melas*. The provisions of the Food Adulteration Act were enforced in some of the *melas* in the Bhagalpur district and in the triennial *mela* held at Rajgir in Patna. The Sonepur fair which is the largest of its kind in the province was, as usual, under the direct supervision of the Public Health Department which worked in co-operation with the local officers and the executives of the district board. Public demonstration lectures were organised at a number of these fairs for dissemination of elementary knowledge of hygiene and sanitation among the masses.

12. *Veterinary.*—The aggregate expenditure under this head showed a decrease of about 14 which was shared by all the boards except Patna and Monghyr. As in the previous year, the decrease is attributed to the reduced cost of *sera* and vaccine though inoculation by goat virus appears to have mainly accounted for the decrease in Singhbhum. The reason for an increase by over 3 in Patna has not been explained while that of over 2 in Monghyr is reported to be due to cost incurred over treatment in a serious outbreak of cattle-disease which followed the floods. The activities of this department of the boards show no signs of development, partly due to the limited resources of the boards. The number of dispensaries and of veterinary assistants remained the same except in Gaya district in which the post of 3rd veterinary assistant surgeon for Sadr subdivision was revised during the year. The work of the department is said to be increasing in popularity in the Jamui subdivision where the board is considering appointment of a third veterinary surgeon. The number of out-patients treated at the Sadr veterinary hospitals of the three district boards in the Bhagalpur division was considerably larger as compared with the previous year. The veterinary assistant surgeons also, besides treating cattle-diseases at hospitals, took up inoculation of cattle and castration of calves in rural areas. This was done mainly by the touring veterinary assistants. The system of inoculations with goat virus and goat tissue virus continued in many districts. No serious outbreak of cattle-disease is reported except from Monghyr and some increase from Cuttack. A number of district boards continued to maintain stud bulls for improvement of breed of cattle. In Purnea, the board awarded prizes for the best cattle at cattle shows held at *melas*. Some of the boards awarded scholarships to veterinary students at the Patna Veterinary College. The activities of the boards in the direction of improving the breed of cattle, appear to have been very little. It is hoped that something substantial will be done in this direction by propaganda in suitable form and by the holding of cattle shows.

13. *Civil Works.*—Compared with the last year's figure, there was a heavy net increase of approximately 16,13 in the expenditure of the boards under this head during the year. The increase is marked in all the districts of the Patna, Bhagalpur and Tirhut Divisions and in Hazaribagh. The heavy increase in the Tirhut and Bhagalpur divisions as well as in the district of Patna was mainly due to the repairs of roads and buildings damaged by the earthquake which also necessitated the employment of additional staff. The increase of about 88 in Gaya is said to be debited under all the sub-heads while that of 95 in Shahabad has not been explained. The rise in Hazaribagh was partly due to repairs of buildings damaged by the earthquake and partly to construction of medical and educational buildings for which grants had been previously made by Government. Larger grants out of the motor vehicles taxation receipts were also responsible to some extent for the heavier expenditure of some of the boards on communication. The expenditure of the Manbhum, Cuttack and Puri district boards and of the Sambalpur district council fell by 14, 54, 8 and 7, respectively, the heavy decrease in Cuttack being ascribed to the inability of the board for certain reasons to spend heavy allotments for medical and school buildings.

The total mileage of metalled roads maintained by the district boards increased from 2,678 in the previous year to 2,717 in the year under report. On the other hand the mileage of unmetalled roads decreased from 15,768 to 15,760. The slight decrease in the mileage of unmetalled road is due to the conversion of certain lengths into metalled roads in some of the districts. There was also a total increase of 262 miles of village roads maintained by the boards. The average cost of maintenance per mile of metalled and unmetalled roads during the year was slightly higher while that of the village roads slightly lower as compared with the previous year. The lapses of allotment made for communications averaged to 12 against 12·15 in the previous year. Some of the important roads and bridges on which the expenditure of the boards during the year was 25 and above are the following :—

1.	Malsalami-Barh road in Patna	26
2.	Construction of Dhadhar bridge on Gaya-Nawadah road in Gaya	76
3.	Repairs of Gaya-Nawadah road in Gaya	27
4.	Repairs of Arrah-Sasaram road in Shahabad	25
5.	Repairs of Dumraon-Nasriganj road in Shahabad	26
6.	Improvement of Kamtaul-Kalonjer road in Darbhanga ..	25
7.	Improvement of the Ganges-Darjeeling road in Purnea ..	68
8.	Improvement of Cuttack-Chandbali road in Cuttack ..	32

All the district boards except those of Patna, Purnea, Bhagalpur, Singhbhum and Puri are reported to have maintained railway feeder roads within their respective jurisdictions. Expenditure on inter-district communications was also incurred by most of the district boards. Champaran, Muzaffarpur, Purnea and Monghyr also incurred some expenditure on maintenance of cart-liks.

14. *Water-hyacinth.*—Very little has been done in the districts of Bihar and Chota Nagpur towards the destruction and the prevention of the growth of this weed. In Patna, the Bihar and Sadr subdivisions alone are reported to have been affected by this plant and the board spent 1 on its eradication. In Tirhut, no district board incurred any expenditure but the Muzaffarpur district board issued notices, under their by-laws, to owners of affected tanks to remove the weed. This step seems to have had satisfactory effects. In the coastal districts of Orissa, where the growth of water-hyacinth has been a great menace to agriculture and health, the campaign of destruction continued to be carried through the agency of rural police under the supervision of Subdivisional Officers and their subordinates. Reappearance of the growth of the plant was noticed in all the districts but in a much smaller number of places as compared with the previous year. Earnest efforts, it is reported, were taken to clear the new growth except in the Sadr subdivision of Cuttack where the work was not done in a systematic way. During the year, the weed was found to have appeared in Railway and Public Works Department borrowpits but the authorities concerned got them cleared satisfactorily. The Tarajore

water course at Jagannathpur and the Atharnala river in Puri both of which had been attended to previously were again affected during the year under report. Notices were issued on a large scale by the Cuttack and Puri district boards to proprietors of tanks and in most cases they were complied with. There were, however, some cases of prosecution. At the instance of the Director of Public Health, pamphlets in Oriya were distributed explaining the advantages of *singhara* cultivation in cleared tanks as a measure for preventing regrowth of water-hyacinth. A conference of the local officers and representatives of district boards was convened by the Divisional Commissioner at which it was decided to organise local welfare committees in the rural areas to carry on the work of destruction of the weed, under the guidance of the local officers and the district boards. It is hoped that this would enable the work to be carried out more effectively and at less cost. Some such welfare committees have already been formed and the people are reported to have shown much enthusiasm.

15. *Closing balance.*—As stated in paragraph 5 above, the aggregate closing balance of the boards which amounted to 37,56 against 33,26 of the previous year include deposits of 5,02 and unspent balance of Government grants to the extent of 8,68. The actual ordinary balance of the boards was thus 23,86. The ordinary closing balance of the boards exceeded the prescribed minimum except in the case of Saran and Balasore which had a balance of 1,46 and 90 against an unspent balance of Government grants aggregating to 1,47 and 88, respectively. Thus, having no closing balance of their own, they appear to have encroached upon Government grants earmarked for specific purposes.

16. *General remarks.*—As observed in the beginning, a very important event in the history of administration of district and local boards has been the amendment of the Bihar and Orissa Local Self-Government Act, 1885, about the close of the year under report, whereby the normal term of office of district and local boards has been increased from three to five years.

The financial position of the district boards except those of the Chota Nagpur and Orissa Divisions was much better during the year as compared with the year preceding, though the improvement was due, to some extent, to substantial grants made to most of the Bihar boards for earthquake repair work. The Purnea district board, in view of its unexpectedly large income from collection of cess, was not only able to recover its position but also fully repaid a loan of 1,50 taken from Government to tide over its temporary financial difficulties. The board was also able to clear off its heavy arrear bills the payment of which had, in some cases, to be withheld in the previous year for want of funds. The financial position of the Hazaribagh district board has turned worse by a further fall in its cess income during the year. Some relief was afforded after the close of the year by the grant of a loan of over 4½ lakhs by Government at a low rate of interest in order to enable the board to discharge the balance of the heavy loans taken previously at a high rate of interest from the Ramgarh Wards Estate.

The sources of income of the boards being limited, there is not much scope for wide development in their activities. What has been done in one or other of the important branches of administration, viz. "Education", "Public Health" "Medical" and "Communication" has been, to some extent, described already. The progress made by the district boards of Champaran, Muzaffarpur and Darbhanga in the restoration of communications and buildings and sources of drinking water-supply which had all been damaged by the last earthquake, was fair. The standard of activities of these boards in other branches of administration was also maintained. The district boards of the Patna Division, particularly those of Patna and Gaya, appear to have made a fair advance in the expansion of education and improvement of communication. The Patna district board, in addition, has to its credit a good record of progress in the department of public health. Apart from its regular public health staff, the board is reported to have maintained an organization of sanitary *jamadars* and sweepers in each of the 24 thanas of the district for cleaning the villages and improving their general sanitation. These gangs of sweepers were also

employed in giving practical demonstration in digging manure pits for the rubbish and soakage pits for the sullage, on the Gurgaon plan. The advent of extensive floods in the district added to the work of the department but it is to the credit of the board that timely precautions were taken to guard against outbreak of epidemics. During the year under report, the Patna district board claims to its credit an expenditure of Rs. 33 per thousand of population as against the provincial average of Rs. 17 on public health measures. The Cuttack district board has under consideration a comprehensive scheme of drinking water-supply. A contribution of 10 has been made by the Tikait Sahib of Kanika and a grant of an equal sum has been sanctioned by Government for the purpose.

Subsequent to the close of the year under review the Government of India have been pleased to make a grant to this province out of the Road Development Fund to the extent of nearly 9½ lakhs for construction of bridges and improvement of roads mentioned below :—

		Rs.
(1) Widening and improving the Koderma-Debour road	...	79,500
(2) Improving Koderma-Singrawan road ...	...	1,74,000
(3) Guly bridge on the Chatra-Champaran road ...	...	50,000
(4) Janunia bridge on Dumri-Bermo road ...	...	1,70,000
(5) Bridge between Latehar and Latehar Railway Station	...	1,00,000
(6) Bridge between Jajpur and Jajpur Railway Station	...	3,75,000

The construction of these bridges was urgently needed and will greatly facilitate road transport in the districts of Chota Nagpur and Orissa. The long drawn dispute between Messrs. Martin and Co., and the Patna and Shahabad district boards on the question of allocation of funds to Renewal Reserve and the liability of these boards as partners in the Bakhtiarpur-Bihar Light Railway and the Arrah-Sasaram Light Railway respectively, was amicably settled at the intervention of Government after the close of the year under review.

The relation between the non-official executives of boards and the local officials was generally happy and marked by harmony and co-operation. The non-official executives particularly of the Patna, Gaya, Muzaffarpur, Darbhanga, Monghyr, Balasore and Puri district boards are reported to have taken keen interest in their work and to have conducted the administration with ability and devotion. The working of the Champaran district board appears to have been disappointing as, at times, the board showed a distinct tendency to resent or neglect the advice of the local officials. The district board of Purnea suffered somewhat on account of lack of co-operation between the executives and the members. The Bhagalpur district board has been peculiarly irresponsive to the advice and suggestions made by the Ministry's Special Officer in a previous inspection note in regard to the working of the board. The recent inspection of the board by the same officer has disclosed a state of utter mismanagement and confusion in office work and Government have since had to supersede the board and place its management under a Government official. From the annual report on the working of the Local Audit Department for the year under review which is separately published by the Examiner of Local Accounts, Bihar and Orissa, it appears that the accounts of the boards during the year were maintained in a fairly satisfactory manner.

In conclusion Government have great pleasure in recording their sense of appreciation of the good work done by most of the executives of the district boards particularly those of Patna, Gaya, Muzaffarpur, Monghyr, Balasore and Puri and to thank the local officers and Commissioners of Divisions for the interest displayed and assistance and advice given by them to non-official executives for proper administration of their boards.

(Sd.) V. K. R. MENON,
Offg. Secretary to Government.
